ROWENA COAL -- We tried this coal yesterday and found it equal the very best ever brought to from points on the Obio river. this market. It is superb. Those wishing to purchase any of it can do so by calling at the coal office No. 41 College street.

It was surprising to see and reading, in one fourth, perhaps one eighth, the and attentive on the river. Go aboard early. time required by any other system. In less than one week the boy mentioned above, acquired as much information as almost any adult could acquire upon any other system, with all the advantage of superior intelligence and refined intellect, in double the time. A system by which so much can be accomplished, ought to meet with general favor, and be introduced in all the schools of the | A new steamer for the Minnesota Packet Compacountry, after the teachers shall have mastered it thoroughly. But what will be its history? The energetic North, in all that pertains to education, has so far outstripped the indolent South, that even Southern people are prone to think nothing good can come out of our Nazareth. For this reason, although we hear a cry for Southern school books, and all that sort of thing-the offspring, as it were, of a spasmodic effort to arouse our section of the country-we very much fear that Mr. Mulkey has wasted the best years of his life for nothing. He halls from the wrong quarter. Were he in the North, and of the North, his system of instruction would, we are persuaded, become vastly popular there, and then run like an epidemic over the wheel.

The weather, to use a common phrase, has 'cleared off' again. Yesterday was quite clear and rather cool; so much so that overcoats and gloves were comfortable companions.

HAGAN'S BOOK AND PERIODICAL DEPOT .- In Hagan & Bro's, Book and Periodical Depot. They have recently removed to a new stand a few doors north of their former store, and their present establishment is quite a novelty in its way. It fronts upon two streets, although not situated upon a corner, one entrance being at No. 39, Market street, and the other at No. 6. Union street. The store is light, and affords them ample room to display their large and varied assortment to the best advantage. The stock embraces a large supply of literary, school, and standard books, together with an extensive assortment of Stationary, and various other articles belonging to the book trade. These gentlemen have been long engaged in this business and in point of experience and acquaintance with everything pertaining to the trade, therefore, they possess advantages which are unsurpassed. The book trade of this city is constantly increasing. It has grown considerably during the year, and it is probable that it will continue to do so until all of the country dealers, or a great portion of them purchase their supplies here. We invite them in behalf of our book merchants to try this market, for we believe that they can do fully as well here as

A number of our citizens left yesterday for New Orleans. Among them were quite a number of young gentlemen of this city bound for the Crescent City on a pleasure excursion. A pleasant trip and a safe return to them.

#### Breaking up of the Ice. The Cincinnati Commercial, of the 6th inst.,

At 3 o'clock A. M., the A. W. Quarrier and Gipsey, "moored" in the vicinity of the "dry locks," were cut down and ruined by the running ice, together with a barge belonging to C. Bealer, ny, James Watt, and other boats were "pilled out" in the same vicinity, and slightly damaged. The John Tompkins parted her lines, and descended fifteen yards, while the unfortunate Grapeshot went adrift-both boats being finally, by dint of

practical energy, recovered, and properly secured. The Telegraph stood the test remarkably well, but her exposed stern "caved" sufficiently in the vicinity of the rudder post to render the aid of pumps available to keep her dry. The steamers ying above escaped injury, save the Kentucky, her starboard wheel being slightly damaged from the heavy pressure of the immense fenders of the Wm. M. Morrison, adjoining on the starboard. On reaching Gilmore's whart we found the Yorktown much careened to the starboard. She had sunka heavy field of ice, extending from shore to shore having cut through her hull aft of the starboard

The Dunleith, a frail but most excellent low water craft, (one of the best braced boats in the ice-bound fleet,) was, of course, necessarily compelled to surrender from the effect of the outside pressure-the Yorktown having lopped her starboard guards, and ruined her bull and upper

works. The Quarrier is six months old, cost \$21,000 and GENERAL COMMISSION MERCHANTS is insured for \$12,000-\$7 000 in the Firemen's, another column will be found the advertisements of and \$5,000 in the Western office of this city. The Quarrier when she sunk, had about fifty tons of freight in her hull, only a very small portion of which was saved.

The James Watt, next adjoining, was forced ashore by the ice and badly damaged. The Gipsey is a total wreck, save one of her en gines, and lies out in the stream, with the water up to her hurricane deck and badly careened to the starboard. She is owned by Captains E. C. in the shape of an L., is well lighted by a fine sky. | Carter and J. Thurston, valued at \$10,000 -no insurance. She had recently been docked and otherwise thoroughly repaired for the Arkansas river

The John Tompkins and a new packet for the Minnesota trade were likewise damaged in the same locality, together with a barge belonging to C. Bealer, Esq. The Buena Vista crane boat and several empty coal barges were wrecked in the

At the City Wharf, Capt. Deshon's Mobile packet Yorktown was completely wrecked, together with the Dunleith, Capt. Enyart, and Marietta packet, Thes Shiver, Capt. Thos. Coulter. They can all be raised, however, and will doubtles be in motion a few weeks hence. The Yorktown was recently purchased for \$11,000 -no insurance .-he Dunleith was valued at \$15,000-owned by David Gibson, Esq. No insurance. The Shriver, we understand, is valued at \$9,000-no insurance. The loss from the foot of Walnut street down to Mill Creek was comparatively light-\$40,000 covering all expenses, in the destruction of seventyfive empty coal barges. The fifth street forry, "Cincinnatus," is a complete wreck.

The St. Louis Democrat, of Wednesday, says: No movement of the ice took place since Tuesday evening, with the exception, that one large field of ice opposite the city, made a trip of some 12 feet yesterday morning. The ice is not in one solid body as before, but separated into large fragments, and at the places of separation, there are arge quantities of small and slushy pieces.
